# 2013 BAR Update Training

### OBDII Gas and Diesel OBDII

This is NOT your typical Smog update training class. The OBDII gasoline class is the based class for 8 hours. The next 8 hours will cover Diesel OBDII . Combined you get over 500 pages of reference material and 16 hours of BAR certified training.

Some of the many topics to be covered in the OBDII gas class include:

- Various SAE documents and CARB/California Rules and Regulations regarding OBDII, from the beginning to the end of legislation (1996MY-2014MY)
- OBD2 modes \$01 through \$09 and \$0A
- All Readiness Monitors will be covered in detail (1996MY-2014MY)
- How **EPA/CARB/BAR** is using OBDII for FRAUD detection in Emission programs, the BAR has called this Enforcement Strategies.

The Diesel class covers 1996-2014 with emphasis on 2007-2014 model years.

**Class ID:** 4361

**2-Day Class**

**Sat. June 22 & Sun. June 23**
